## **RULES & REGULATIONS**

1. Partner not required.
2. Must be 18+ years of age to participate.
3. Dancer must enter as a leader or a follow.
4. No switching between lead and follow will be allowed.
5. Must be Social (Amateur) dancers only. No professional dancers will be allowed to compete. Definition of a professional dancer is a person that their main source of income is from Argentine Tango.
6. Dancers cannot break the embrace. It is understood that, in certain figures, the embrace can be flexible (open and close according to the figure), but not throughout the entire piece of music.
7. Couples may perform any commonly used figures of “social” tango, including “barridas” (sweeps), “sacadas al piso” (drawn to the floor), “enrosques” (twists), “ganchos” (hooks), boleos, etc, as well as embellishments always within their own space, without standing in the way of couples dancing around them.
8. All movements and figures must be made within the space allowed by the couple’s embrace, so as not to get in the way of the other couples dancing.
9. Couples will have to constantly move counterclockwise without going backwards. They will be allowed, if needed, to walk one or two step backwards at most always within the space of the couple. The couple must be aware and respectful of their own and other couples’ space in the round in order not to break the harmony when moving around.
10. “Saltos” (jumps), “trepadas” (climbs) and any other possibilities typically used in stage tango where both feet lose contact with the floor are completely excluded.
11. It is not allowed to overtake and pass other competitors.
12. Outfits may be taken into consideration during the judging process.

## **EVALUATION CRITERIA**

1. All dancers will be evaluated individually by the judging panel who will determine a unique winner for each role and category.
2. Posture, elegance, technique, connection to the partner and walking style will be the main points of evaluation for all dancers. The judges will also take into account the dancer’s own interpretation and their musicality.
3. For the LEADER’s role the judges will give relevance to navigation. Leaders should constantly move counterclockwise without going backwards although it is allowed to perform one or two back steps if the movement requires it, and avoid more than two musical phrases on the same spot, making it difficult for the round to circulate.
4. For the FOLLOWER’s role the judges will give special relevance to the skill of following (anticipation or back leading will be penalized).
